

FOCUS ON ROBERT GRAVES

EDITED BY ELLSWORTH MASON, UNIVERSITY OF COLORADO LIBRARY, BOULDER, COLORADO

Number 6, September 1982

Note from the Editor.

For a number of reasons, including time and money, this is the first issue of this periodical to appear since Number 5 was published in June 1976. There will be one more issue in 1983, complete with an index to the entire set, and that will have to suffice for a one-man operation that had originally hoped for much cooperation from Robert Graves scholars and collectors, which has not come forth.
